

Product Information Sheet

BFC: Beef Mineral (product # BF1000)

BFC: Beef Mineral (product#BF1006)

BFC: Beef Mineral

About the Product:

Our beef free choice beef mineral is a free choice premix for beef cattle grazing on pasture or fed hay. BFC: Beef Mineral should be self-fed as the only source of supplemental minerals and salt. Consumption may vary with quality of forage available.

Trace minerals highly Fortified:

BFC: Beef Mineral is formulated using Redmond Salt which provides a unique balance of additional colloidal trace minerals. This balance of micro and macro trace minerals in BFC: Beef Mineral provides the building blocks for a healthier animal, improved hoof integrity, shinier hair coat and higher fertility rates.

High Vitamin A, D and E Fortification:

BFC: Beef Mineral is designed to provide high levels of Vitamin A, D, and E to improved growth, reproduction and immunity.
