

18% Quantum Calf Starter

Product #CF2001

About the Product:

This specific blend of highly palatable fiber sources along with the coarse texture and moisture optimizes early starter intake, calf performance, and early rumen development.

Benefits of Supplements:

18% as fed, crude protein for good structural growth, optimal balance of minerals, B-vitamins and vitamins A, D3, and E, organic trace minerals for maximum availability, has been shown to improve calf health and growth. Yeast to promote intake consistency, gut health, and multiple fiber sources for gut health, palatability, and excellent calf performance.

Feeding Directions:

Introduce calf starter at four days of age. Avoid feeding hay prior to weaning. Wean calves at four to six weeks of age when eating a minimum of 3.0 pounds of Quantum 18% Calf Starter feed per head per day for two consecutive days. Always provide fresh, clean water.
