

GFS 22-20 IPro

Premium Quality
Calf Milk Replacer

GFS 22-20 IPro is a premium quality milk replacer, with NeoTec5g® and Amneo® and NUTRA PRO® plasma proteins.

These research-proven technologies help your calves reach their genetic potential by providing the following benefits:

- Better overall calf health
- Improved feed efficiency
- Improved ADG
- 22% Protein that feeds like a 24% Protein milk replacer.
- Helps reduce scours
- Improved frame growth

GAIN HEALTH DEVELOPMENT EFFICIENCY

AVERAGE DAILY GAIN IMPROVED BY 10%
SCOURING REDUCED BY 20%
TALLER AND LONGER CALVES
FEED EFFICIENCY IMPROVED BY 10%

IN IT TO WIN IT

NeoTec5g® is a combination of essential fatty acids and "G" factors that have been extensively researched and field-tested in calves under 4 months of age over the last 10 years.

The 3 added "G" factors aid in digestion, absorption, and metabolism, helping improve growth and efficiency in young calves.

NUTRA PRO® plasma has been viewed as just an "Alternative" protein source for calves. Like colostrums plasma is rich in functional proteins such as antibodies, growth factors and immune cells that help the calf stay healthy.

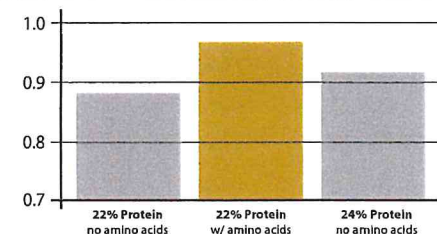

Potential benefits of milk replacers containing NUTRA PRO 5.2%

Item	Mortality	Days with Scours
No Plasma	14.6%	6.1%
With Plasma	5.4%	5.2%

AmNeo® is a proprietary amino acid balance that will provide equivalent animal performance that compares to a 24% Crude Protein milk replacer.

Power of Amino Acids in 22% protein formulas

General Farm Supply, Inc.

GFS 22-20 IPro

Calf Milk Replacer

Containing NeoTec5g® & AmNeo®
BovaTec®, NUTRA PRO® plasma, Bio-Moss®

Guaranteed Analysis

Crude Protein, %	22.00
Crude Fat, %	20.00
Crude Fiber, %	<0.15
Calcium, %	1.00
Phosphorus, %	1.00
Selenium, %	0.60
Vitamin A, IU/lb	35,000
Vitamin D, IU/lb	7,500
Vitamin E, IU/lb	150

Contains milk and plasma protein sources.

Usage Directions:

Feed 1.25 lb of powder daily
