

# GFS Dry Cow Mineral

**Product #DA6010**

**About the Product:**

GFS Dry Cow Mineral is designed for nonlactating dairy cow to balance the mineral and vitamin requirements of dairy cow during the dry period. The vitamin and mineral fortification, in this product, ensures a good supply of nutrients and aids in reducing metabolic disorders and rebreeding problems. Feed 0.3lbs. per cow per day. The amount may vary depending on forage quality and use in ration. Contact your GFS consultant to calculate your ration requirements.

**Trace minerals highly Fortified:**

GFS Dry Cow Mineral is formulated to provide the necessary supplemental vitamins and trace minerals during the dry period. GFS Dry Cow Mineral provides trace minerals such as selenium, copper, zinc, manganese, and cobalt which are shown to be beneficial in boosting immune function.

**High Vitamin A, D and E Fortification:**

GFS Dry Cow Mineral is designed to provide high levels of Vitamin A, D, and E to improved health and immunity.
