

## Product Information Sheet

GFS Heifer Mineral Nonmedicated (product # HF3000)

# GFS Heifer Mineral Nonmedicated

### About the Product:

GFS Heifer Mineral is a nonmedicated high quality premix for dairy young stock. It is formulated for replacement heifer rations where vitamin and trace mineral requirements are not met by other supplements or minerals. GFS Heifer Mineral can be fed free choice or mixed into grain or TMR rations. Typical feed rate is 4 ounces per head per day.

### Trace minerals highly Fortified:

GFS Heifer Mineral is formulated using Redmond Salt which provides a unique balance of additional colloidal trace minerals. This balance of micro and macro trace minerals in GFS Heifer Mineral provides the building blocks for a healthier heifer which can reach their genetic potential.

### High Vitamin A, D and E Fortification:

GFS Heifer Mineral is designed to provide high levels of Vitamin A, D, and E to improved growth, reproduction and immunity.
